NOTES FROM NATIVE PAPERS

In the Yangchow jurisdiction (Kiangeu Province) the water in the Grand Canal has been rising eyer since the beginning of this Chinese month, (now about four weeks) at the rate of an inch or two a day, until it is now more than a foot higher than it was in the middle of the mixth moon. The water is now over eleven feet deep, which is only a few inches short of the depth when the sluices must be raised.
